That is what we are  
here for.

How to get more of it  
Is the question with us.  
We have found but one  
way. That is by furnishing  
the  
Very Best Goods  
At The  
Very Lowest Prices.

By the Best Goods is not  
necessarily meant the hand-  
somest or most expensive.  
Its the moderate purses that  
make up the larger number  
of purchasers, consequently  
we aim to furnish the kind  
of goods that nine out of  
every ten—the mass of the  
people—are looking for, and  
at prices they are able to  
pay.

Masterly efforts on our  
part have resulted splendidly.  
We could have floated  
with the tide—paid more  
and charged more for our  
goods—but we prefer our  
old-fashioned way of keep-  
ing prices down. We began  
buying our Spring and Sum-  
mer stock last fall and we  
succeeded in securing most  
of our stock at old prices,  
consequently we are in a  
position to live and let live.  
Our spring goods are now

## LANCASTER AND VICINITY.

### Time to Act.

Without entering into the numerous advantages to be derived from the Southern Railroad and extension through Garrard county, it affords us a proud satisfaction to be able to announce to the public that a meeting of the Commercial Club was held at the National Bank last night when encouraging news was announced from the officials of said road, and it can be confidently asserted that if fourteen men will subscribe five hundred dollars each toward the right-of-way the remainder can be raised, and the road secured.

This is no wild estimate, but a deliberate conclusion reached by a calculation made by leading financiers at said meeting. Who will be the first to report to the Club, or at either bank? Delay in this matter is dangerous. The road will be built in the near future and upon your action the future prosperity of Garrard depends.

### Good Show.

The Danville Advocate says:—The Williams Comedy Company is playing at the opera house this week at popular prices—twenty and thirty cents. The company has a good repertoire and stages and costumes its pieces well. Some extremely pleasing specialty work, singing and dancing, is done by different members of the company, and altogether one gets more than the price of his admission. There will be a matinee Saturday at 2:30.

At Garrard Opera House every night next week. Admission 10c, 20c, and 30c.

### Sunday Night Fire.

About 2:30 o'clock Sunday night, the large green-house of Mr. Heberling, on Water street, was discovered by that gentleman to be on fire. He at once began a fierce battle with the flames, while his wife ran for Mr. W. O. Rigney, their next neighbor. The two men by the hardest fighting succeeded in extinguishing the fire, but not until one end of the building had been greatly damaged and many glass broken by the heat. Mr. Heberling had about \$250 worth of stock in the building, consisting of growing plants and a number of fine flowers and shrubs belonging to different parties in town which had been put there for the winter. Out of the entire lot only about half a dozen were left. Several large palms belonging to Mrs. J. E. Stormes, and a number belonging to Mrs. D. M. Lackey were killed. The fire originated from the furnace, and how it happened is a mystery, as Mr. H. was in the building only a few minutes before the discovery. The damage to the building will amount to probably forty dollars.

Mr. Heberling has commenced repairs on the house and will have it refitted in a few days. He asks THE RECORD to express his heart-felt thanks to the people of Lancaster for their many kindnesses in his misfortune, and to say that he has not words at his command to express his deep feeling of gratitude. He is a young man who has made many friends in Lancaster, and the people stand ready to lend him all assistance in their power to replace his loss and help him get another start in the world. He will be ready for business in a few days and able to supply all orders for flowers and plants of any kind.

### The Cemetery Gate.

The ladies of the committee to secure the erection of a handsome entrance to the Lancaster Cemetery, met Monday and attended to a few matters connected with their work, and decided to meet again next Monday at 2:30 o'clock at which time they desire all who have been engaged in the work to be with them. At this meeting they will look over the various plans and specifications and make a selection. As this is important, they ask THE RECORD to urge upon all the importance of attending. Please be on hand promptly.

### The Blackbird Minstrels.

A minstrel performance, under the above name, will be given by forty of Lancaster's young people at the Opera House tomorrow (Friday) night. Mrs. H. G. Hull is in charge of the entertainment, which fact insures a pronounced success. She has had charge of several entertainments in Lancaster, and each time delighted large audiences. This will be made up of local talent, and some of Lancaster's best musicians are on the program. If you want to spend an evening of pure fun, go to the Opera House tomorrow night. Admission only 35cts, reserved seats 50cts, on sale at McRoberts drug store.

### A Monument to Goebel.

A movement has been put on foot by which the many admirers of the late Wm. Goebel will have an opportunity of contributing toward erecting a monument to his memory, and at the same time receive a memorial card or certificate to keep as a motto. The plan is for each to contribute any sum he may see proper, the same to be sent to Frankfort, when the certificates will be issued. Mr. Joe E. Robinson has been appointed to receive subscriptions in this county, and has already received a number of contributions. As the matter is to be closed up soon, it is important that those desiring to contribute bring or send the amount to Mr. Robinson at once. The list is at McRoberts drug store, where those desiring to contribute can sign same.

### About the Waterworks.

Mr. E. P. Moritz, the waterworks man, was in town Monday, having been absent in St. Louis for a month or so. He tells THE RECORD that he has completed his arrangements and will commence his survey within the next six weeks. It will require about five days to run the lines, locate etc. No work will be done upon the construction until the latter part of April or first of May. The wisdom of waiting until May is readily seen by those familiar with the laying of pipes and digging trenches. If he were to begin his excavations and a freeze should come, the walls would fall in, causing a loss of much time and money. The great advance in price of iron will work a hardship upon the firm, as it is now about fifty to seventy-five percent higher than when he put in his bid, but they are going ahead with the work just the same. Mr. Moritz says he will employ as many hands as can work, and when operations are commenced they will be pushed with the greatest rapidity. This will furnish employment to a great many hands and leave a lot of money in their pockets.

### The City Council.

The Council met in regular session Monday night. A committee was appointed to revise the license laws, especially that part referring to cogs. Another committee was appointed to look into the advisability of grading and paving certain portions of Campbell and Totten avenues. Jim Dillon applied for license as city bill poster, which will be granted. A few claims were allowed and the meeting adjourned.

The Williams Comedy company is one of the best troupes on the road. Their repertoire consists of some of the heavy plays which stars of note have made famous, and are abounding in startling climaxes. The costumes and stage effects are rich and brilliant, and the characters in each play are well carried out. This company plays all next week at the Opera House. The special low rates have been made, viz: 10, 20 and 30 cts.

### Speaks Highly of The Show.

The Danville Advocate says:—The Williams Comedy Company, which has been giving good performances at the opera house every evening this week, will give a ladies' and children's matinee to-morrow afternoon at half past two o'clock and close the engagement with a good bill to-morrow night. This is one of the best repertoire companies that ever appeared here and deserved even better patronage than it has received.

At Garrard Opera House every night next week. Prices 10, 20 and 30cts.

### G. A. R. Officers Coming.

Jos. H. Browning, commander of the G. A. R. for the state of Kentucky, will be in Lancaster on the 14th to make final arrangements for the State meeting here next May. He will bring his staff along, and the local Commercial Club should bestir themselves and lay plans for the entertainment of the old vets. The meeting will bring about three thousand people to town for two days, and as all come prepared to pay their way, it can be seen that much money will be left in town. Capt. Herndon, Jas. Dillon and several other old soldiers have been pushing the meeting, and all soldiers, both Federal and Confederate, are expected to unite and give the old boys a rousing welcome. The visitors will crowd the hotels and boarding houses, but an estimate shows that we will be amply able to take care of all who come.

The Commercial Club should have a meeting and appoint a committee to act in conjunction with the soldiers, and begin the work now, while they have time to study over the plans. Several special trains will bring the delegates, and many will come in a day or so ahead of the time. THE RECORD suggests that the Commercial Club now that they take steps to secure Saxton's band, as that organization might have conflicting dates. The band should be kept here at least two days, and it would not be a bad idea to have them here the night before the meeting, as many delegates will be here then. This is a matter that should be attended to at once.

### The Situation at Frankfort.

For one to keep track of events at Frankfort, he would have to lay aside all other business and put in his entire time reading the papers. For several days thrilling events followed so closely after one another that a report would scarcely get circulated until another would transpire of equal if not more importance. From present indications, the clouds are lifting and the advice of wise heads is having the effect to check the leaders in their mad rush for supremacy. It would be impossible for this humble sheet to attempt a description of what has transpired at the capital. Even the big dailies have been forced to almost abandon the publication of other matter, and fill their columns with Frankfort happenings.

Mr. Goebel, after great suffering, died Saturday night about 7 o'clock. Immediately the democrats had Mr. Beckham sworn in as governor. Mr. Taylor remains in the state executive building surrounded by troops. There are probably fifteen hundred soldiers camped in the state house yard, and no one is permitted therein except by special permission. Arrangements were made for a consultation between the leaders, which it is devoutly hoped by all law-abiding citizens, will terminate in a peaceful solution of matters.

Mr. Goebel's remains were viewed by thousands of friends, and the body taken to Covington, his home, where they lay in state until Wednesday morning, when they were returned to Frankfort. The burial was in the Frankfort cemetery yesterday and the funeral the largest ever held in this section of the country.

As stated above, so many thrilling events have taken place, that it would be impossible for a country paper to give anything like the true standing of affairs.

LATER. At the peace conference held in Louisville, the following agreement was drafted. This will end the war and all law-loving citizens will give a hearty "Amen."

First—That if the General Assembly in joint session shall adopt a resolution ratifying their recent action adopting the contest reports seating Goebel and Beckham, the contestees, W. S. Taylor and John Marshall, shall submit without further protest.

Second—That all parties shall unite in an effort to bring about such a modification of the election laws as will provide for nonpartisan election boards and insure free and fair elections.

Third—That the conditions shall remain in statu quo until Monday, the General Assembly meeting and adjourning from day to day until that time.

Fourth—That nothing shall be done

to hinder or prevent a joint session of the General Assembly for taking action on the ratification resolution.

Fifth—That the State Contest Board shall meet and adjourn from day to day until Tuesday without taking any action on the contest for minor State offices.

Sixth—That the State troops shall be removed from the State capital at once, though with all necessary precautions for the public safety.

Seventh—That the Republican officials and officers of the State Guard shall have immunity from charges of treason, usurpation, court-martial or any other such offenses.

The agreement was signed by the following:

Republicans—John Marshall, Judge John W. Barr, Gen. Dan Lindsey, T. L. Edelen, Dr. T. H. Baker, David W. Fairleigh, C. T. Ballard.

Democrats—J. C. S. Blackburn, J. C. W. Beckham, Sam J. Shackelford, Urey Woodson, James B. McCreary, Phil Thompson.

As we go to press, Mr. Taylor had not signed the agreement, he waiting. It is claimed, to see for sure that the election law is to be repealed. Upon this he is hanging fire, but it is confidently believed by all concerned that he will sign.

No smoke better than the Proctor Knott cigar.

I can save you money on harness. W. J. Romans.

LANCASTER KENTUCKY.

### CENTRAL RECORD

EVERY WEEK BY  
LOUIS LANDRAM, Publisher.  
LANCASTER, KENTUCKY.

TERMS: ONE YEAR, IN ADVANCE, \$1.00  
SIX MONTHS, .60

THURSDAY, February 8, 1900

The conduct of the politicians at Frankfort during the past few weeks has had the effect of knocking the bottom out of many business projects which would have been of untold value to the state. We can speak from personal knowledge of one enterprise that would have been of the greatest blessing central Kentucky could hope for, and have heard of numerous other moves that have been cut short, the projects calling a halt, to see whether the state would be left upon the map when the gang saw fit to lay down their arms and let business proceed and the people have a rest. Matters in the state are undoubtedly in a deplorable shape, and by the time the "special" correspondents get through coloring them up for print in the eastern papers, it makes the nation look upon us as a band of uncivilized cut-throats and heathens.

The question now is how long will the good citizens stand by and let their interests be throttled by a gang of selfish politicians? Which is of the most importance to our citizens, whether Jim Jones shall draw the governor's salary, or shall these politicians be shoved aside and the vast resources of the state developed and business brought into our borders? The time has come for the people to give political crib-feeders a back seat. All this trouble at Frankfort has been brought about by the ambition of a few politicians. Had they kept out, the contest would have been settled by the legislature in a few days' time and none of the present state of affairs existed. The leaders have been spurred on to a great extent by the walling of partisan newspapers over the state, and their mouthings has had the effect of keeping some of the citizens up to a high tension of excitement. If such editors would stop and consider which is the most interest to the people, who is Governor, or the reputation and progress of our state, they would have counseled a peaceful solution of the matter instead of trying to incite their readers to shoulder a gun and take the life of their fellow men. We don't know how matters will end at the capital, and it makes little difference to us personally who shall warm the executive chair, but it does seem that the people should awaken to the necessity of putting a stop to the warfare and endeavor to quiet matters and work for the advancement of the state instead of applauding the moves of their respective bullies at Frankfort.

"A MAN learns his politics and opinions from his father and other men, but his religion from his mother," writes an American Mother in the February Ladies' Home Journal. "No vicious manhood can quite kill the faith which sprang up in his soul when he knelt, a little child at her knee every night, or was hushed to sleep on her breast while she sang 'that sweet story of old, when Jesus was here among men.' In earlier times in this country a mother had little work outside of her house and children. She watched her boy and night to keep him near to God and out of the devil's clutches. It was she who told him of the Babe and the Cross out of the old Book which lay on the table beside her bed. He saw her turn to it when she was happy, when she was wretched, when she was old and dying. So it came that there was nothing so near to God in that man's eyes as his mother, her Bible and her savior. But that woman is long ago dead and buried. The modern mother talks of her as of some coarse animal whose ignoble life was started out in a cage. Her own feet are set in a large room. Her horizon takes in the world. She manages political caucuses, civic affairs, countless domestic and foreign missions. Art, literature, society and helpless humanity claim her. She rises every morning knowing that a botched old world is waiting for her to set it right."

A large crowd from here attended county court in Harrodsburg last Monday. Wm. Christopher still makes regular trips to Lexington every week with his market wagon. Miss Pearl Ruble, who has been very ill for several months, is reported a little better.

### Preachers and Politics.

(By O. T. Wallace.)

It has been thought and said by many educated and right thinking men, that in every great moral issue that arises, the church must go forward in them if these issues are decided right. The preachers are supposed to be leaders and teachers of the people in these reforms and in everything that pertains to good morals, good government and in fact everything that christianity teaches. But the great majority of the preachers in this country, as well as great majority of the christian voters, are extremely particular to keep their religion and their politics separate. A great way apart. How often do we hear them come over the old and hackneyed expression, "It won't do to mix religion and politics." In this connection I am often reminded of an anecdote told by my prohibition friend, Hon. Alex Lusk. He was attending a meeting of his Presbytery, and was accused by one of his fellow presbyters of "talking politics too much on the Sabbath day." Mr. Lusk immediately replied: "the politics my brother that I believe in and practice on and ought to be talked on the Sabbath as well as any other day, and if I had such politics as you have, I wouldn't talk it on Monday, much less on Sunday."

In the days of the good old patriarchs and prophets the people had their politics and religion all mixed up together, and God hasten the day when our preachers and all other professing christians shall carry the two things in the same bundle. So we, in these latter days, who have championed a movement with a political party behind it for the purpose of destroying the greatest enemy of American liberty and manhood, look to the preachers more for sympathy and support than to any other class of voters, but sad to say we do not get very much of either. The most liberal estimate is that not over 25 per cent. of the preachers vote with us. But not only in Bible days do we see the people mixing religion and politics, but in our own good old colonial days church and profane history tells us of many noble and notable instances where the preachers in assembled religious bodies took the lead in counseling the people as to their civil rights and in taking steps to throw off by force of arms, if necessary the yoke of King George.

That doubtless was politics of the right kind, no kick against making them except it might be among their friends the Tories. So we prohibitionists think that these exist now and has existed to these 25 or 30 years or more condition of affairs in these United States which just as loudly calls for our preachers, one and all, to take the lead in ridding the country of earth's greatest curse and crime, the legalized rum business.

Many of the men who talk that way, that is, say "it won't do to mix 'em," are not overstocked with religion and thus have very little of that article to I always think I know which side a man is on, be he preacher or layman, when I hear him and see him so awfully cautious about mixing religion and politics.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people, having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at J E Stormes' Drug Store. Sold by dealers in all civilized countries.

Harrodsburg Democrat: Last Thursday was the twenty-fifth anniversary of the marriage of Dr. and Mrs. W. O. Goodloe. Being their silver wedding, the members of the Assembly Presbyterian church, about nine o'clock Thursday morning, put their heads together and decided to present their beloved pastor and his wife with a suitable present as an indication of the esteem in which they are held. Before three o'clock in the afternoon a collection of forty dollars had been made. The amount in new half dollars was secured at the bank and enclosed in a nice box and presented.

Rev. Henry Faulconer and wife left Saturday for their new home, Hillsboro, Ohio, at which place he takes charge of the Presbyterian church. No young man has ever been amongst us who has made more friends than has Rev. Faulconer. He is an earnest minister, but of the social, good-natured kind that brings pleasure to all with whom he comes in contact. "Henry," as everyone had learned to address him, is far from the long-faced class of preachers, and soon convinces you that one can be a Christian and not wear a face as long as a well-rope. Its a pity there are not more such people of his type.

Mr. Fissinger, manager of the Garrard served an elegant dinner last Sunday evening at 6 o'clock. While he will hardly come out even financially, yet Mr. Fissinger will only charge fifty cents for each person. There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. Not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. We have Some of the Same. Several months ago a smoothie stranger secured a large number of advertising cards to be printed on a large railroad time-card to be framed and displayed. The merchants paid from five to eight dollars per card, and the swindler only took out enough cards to use in collecting his money. The balance were left in the newspaper office where they were printed. Why will the merchants throw away their money on the swindling fakes? Some Paris men will freely give their money to a stranger and flatly refuse to give an advertisement to the local newspapers or a local advertising solicitor.—Paris News.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular size 50 cents and \$1.00. Trial bottles free at R. E. Resolutions of Respect. Be it resolved: That in the death of Mrs. R. H. Batson, this Sunday-School has lost one of its very best members, and the whole cause of the Master a faithful follower.

It is hard for us to give her up, though we know that she has gone to be forever and forever in Heaven with Christ and the Great Father. She was one of God's saints. "Precious in the sight of the Lord is the death of His Saints." Her life was a benediction to her home, to her fellow-disciples, to the community, to all with whom she was brought in contact. Blessed be her memory! To the broken family our hearts go out in tenderest sympathy.

A. F. HUDSON, A. C. ROBINSON, Committee on W. I. WILLIAMS. Resolutions.

The Ladies Aid Society of the Christian Church, hereby extend that, Whereas, an all-wise Providence has seen fit to remove from our midst our dear sister, Mrs. R. H. Batson, therefore be it

Resolved: That we humbly bow to the will of Him who "doeth all things well," knowing that whatever He does is best.

We thank our Heavenly Father for the Christian life she lived among us, for the love and zeal which she showed, both for the church, and the Ladies Aid Society, and that we may strive, with the help of God to imitate her virtues and earnestness. That we extend to the grief-stricken family our tenderest sympathy in their deep affliction. May the loving memory she has left and gentle influence of her Christian life console them in their loss until they meet her beyond the river.

That a copy of these resolutions be sent to the bereaved family and published in the CENTRAL RECORD.

MRS. R. L. ELKIN, MRS. R. E. McROBERTS, Committee. MRS. J. C. HEMPHILL.

RESOLUTIONS OF W. C. T. U.

Inasmuch as our Father has plucked from His earthly garden a plant which gave out its sweet fragrance to all who chanced to come in contact with it, and has transplanted it with loving hands, to that heavenly garden, where it shall never again be blighted by disease, but shall be tenderly nurtured by the great King, therefore be it Resolved: That the Lancaster W. C. T. U. feels deeply the loss of our dear sister, Mrs. R. H. Batson, who was ever in sympathy with every department of our work for "God, Home and Humanity."

Resolved: That we extend to her family, in their hours of grief, our sincere sympathy, reminding them that Christ is always bearing the heaviest portion of every cross laid upon His children.

Resolved: That a copy of these resolutions be sent to the bereaved family, that they be spread upon our minute book, and printed in the CENTRAL RECORD.

## RAW AS BEEF FROM ECZEMA!

No Torture Equal to the Itching and Burning of This Fearful Disease.

Eczema—which is more than skin-deep, and can not be reached by local applications of ointments, salves, etc., applied to the surface. The disease itself, the real cause of the trouble, is in the blood, although all suffering is produced through the skin; the only way to reach the disease, therefore, is through the blood.

Mr. Phil T. Jones, of Mixersville, Ind., writes: "I had Eczema thirty years, and after a great deal of treatment my leg was so raw and sore that it gave me constant pain. It finally broke into a running sore, and began to spread and grow worse. For the past five or six years I have suffered untold agony and had given up all hope of ever being free from the disease, as I have been treated by some of the best physicians and have taken many blood medicines, all in vain. With little faith left I began to take S. S. S., and it apparently made the Eczema worse, but I knew that this was the way the remedy got rid of the poison. Continuing S. S. S., the sore healed up entirely, the skin became clear and smooth, and I was cured perfectly."

Eczema is an obstinate disease and can not be cured by a remedy which is only a tonic. Swift's Specific—

**S. S. S. FOR THE BLOOD**—is superior to other blood remedies because it cures diseases which they can not reach. It goes to the bottom—to the cause of the disease—and will cure the worst case of Eczema, no matter what other treatment has failed. It is the only blood remedy guaranteed to be free from potash, mercury or any other mineral, and never fails to cure Eczema, Scrofula, Contagious Blood Poison, Cancer, Tetter, Rheumatism, Open Sores, Ulcers, Boils, etc. Insist upon S. S. S.; nothing can take its place. Books on these diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.

The yards are capable of receiving and accommodating daily 20,000 cattle, 20,000 sheep and 120,000 hogs.

A Missouri man claims to have kept an accurate account of all the public sales of Hereford, Angus and Short-horn cattle held in the United States during the year 1899 as reported in the Breeder's Gazette. He reports the following result: Herefords—1,033 head, \$271.105, average per head, \$262.44; Angus—469 head, \$115.895, average per head, \$247; Shorthorns—1,794 head, \$315.536, average per head, \$175.75.

"After doctors tried to cure me of pneumonia I used One Minute Cough Cure and three bottles of it cured me. It is also the best remedy on earth for whooping cough. It cured my grand-children of the worst cases," writes Jno. Berry, Loganton, Pa. It is the only harmless remedy that gives immediate results. Cures cough, colds, and throat and lung troubles. It prevents consumption. Children always like it. Mothers endorse it. F. P. Frisbie.

Accurate statistics have been compiled of the total shipments of Kentucky turkeys during the Thanksgiving and holiday season of 1899. The total number of pounds shipped was 2,141,190, and the amount received for same was \$255,423.46, an average price per 100 lbs. of \$11.92. The poultry business is fast becoming one of the leading industries of the State, and it is predicted that in a few years it will be the largest. The climate conditions in Kentucky are peculiarly favorable to raising of turkeys, and on many of the smaller farms it is already the most profitable crop.

A bill has been introduced in the Kentucky Legislature providing for a tax of \$1 on all dogs, to be paid into a fund to reimburse sheep owners losing sheep through depredations of dogs. The money is to be collected by the Sheriff and the surplus over the above \$50 at the end of each year is to go into the school fund. The law is similar to one in effect in Indiana.

The past month's receipts at Chicago were the largest January receipts in over five years, or since 1894. For the first two weeks of the month there was a gain of over 27,000 compared with a year ago. The total for the entire month will probably reach at least 240,000 against only 191,564 last January and 207,755 the last month of 1899.

Toasting bread until it becomes brown largely converts the starch into dextrine, and hence, so far as the process of digestion is concerned, one of the processes of digestion is gone through before the bread is taken into the stomach. It will be found that the thinner the slices of bread, and the more thoroughly they are toasted, the easier digestion will be, and when all portions of the slice of bread are thoroughly toasted—not burned, but still changed to a deep brown color—it will be found to be still more easily digested.

That it is sometimes better to sell your tobacco at home rather than ship to the city market was demonstrated the past week. One of our prominent tobacco buyers recently tried very hard to purchase a crop of the weed from one of our largest growers, offering what might be termed a fancy price and at the same time presenting an argument to show why the grower would have to sell for less on the city market because of the manner in which he would have to assort the ship it as a single crop. The purchase was effected, however, and last week the said grower sold his crop on the Cincinnati market for nearly three-fourths of a cent a pound less than the home offer.—Falmouth Penderletonian.

**An Editor's Life Saved by Chamberlain's Cough Remedy.**

During the early part of October, 1896, I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. S. Edwards, Publisher of the Review, Wyant, Ill. For sale by R. E. McRoberts, Drugist.

**Wise Words.**

"If you cannot say a good word for your fellow man, for God's sake don't say anything," remarks the Winchester Democrat. Life's burdens are all too heavy even under the most favorable circumstances, and when opprobrium, accusations and lies are laid thick and fast on top, the burden becomes too great for many a weak, faint-hearted soul who seeks solace in death. Look to your own life. Make it purer and better, and then help your brother instead of continually devising to down him. You will be the happier on earth for it and be more blissful in the home perpetuated at God's throne. Men and women have been hounded to the grave by a lying tongue; it has caused more suicides, wrecked more sad faces and heavy hearts than any other cause, and the army of devotees of this damnable diversion, will present a pitiable appearance before the great tribunal. It is a remarkable fact too, that the rottenest rattle are the most prone to talk about decent people."

**A Timely Comment.**

A gentleman, who has been tortured by the brainless youths at the Opera House, hands in the following for publication:

At nearly every performance given at the Opera House there is in the audience a few misguided persons who seek to distinguish themselves by applauding late arrivals. It seems as though some people can never learn how to deport themselves with propriety in a public place. Applause when merited and properly directed is perfectly right, but to attempt to stamp the floor into the basement with your feet just because you see some one walking down the aisle to his seat is disgusting. While your sentiments may be pro-Boer, you should not allow yourself to become too extremely boorish in an audience which is undoubtedly neutral. And should your appreciation be elicited by developments on the stage, which is probable, the suggestion is offered that it be expressed by the more seemly correct method of clapping the hands.

**FIRST IN THE WORLD.**  
We Lead the Nations in the Drinking of Coffee.

We are the greatest coffee drinkers in the world. In 1897 we used 636,000,000 pounds of coffee. This was 10,000,000 pounds more than was consumed by all the combined countries in Europe. We have increased our consumption of coffee during the past year at the rate of more than a pound per person, and we now use fully fifty pounds annually for each person in the United States.

In those days retail grocers bought and sold coffee in its green state, and each consumer roasted it for himself in an iron pot, over an ordinary fire. Of course it was impossible to obtain uniform results from such crude methods, and from lack of experience and stupidity the coffee was far less palatable, but there was one great advantage in this method, viz. that the coffee was freshly roasted and did not have time to lose the aroma and perfect strength by being exposed to the air. This is a feature of the coffee question to which too little attention has been paid. Roasted coffee loses in quality and aroma from the very moment it leaves the roaster. If it can be kept in a tightly-closed receptacle this is largely avoided, but it ought never to be placed in a wooden box or bin possessing any odor, for coffee is peculiarly susceptible to surrounding odors, and when exposed to the air all its delicate aroma is rapidly dissipated.

There is a very famous brand of coffee now before the public called Lion Coffee, which has come into favor with consumers, not alone because of its purity and high quality, but by reason doubtless, of the fact that immediately after roasting in the mills it is tightly closed in a sealed package, practically air proof. Thus the aroma is carefully preserved. All adulteration is impossible. No impurities can creep into the closed package and full weight is absolutely guaranteed. Without a word being spoken, the purchaser of a package of Lion Coffee has his guarantee of correct weight, uniform quality, absolute purity and unsurpassed aroma and strength at no extra cost. Everything is reduced to an exact system, and it is little wonder that Lion Coffee to-day is rapidly supplanting the old favorites of the last ten years.

**"The Tomb of Romulus."**  
A notable recent achievement in archaeology is the discovery in the Roman Forum of a massive pavement of black marble nine feet square, which some believe to be the veritable "black stone" which the Romans venerated as marking the tomb of Romulus. Under the marble, among other objects, was a broken stela, or sepulchral column, covered with archaic Latin characters, and this is considered to bear out the statement of the later Roman historians that in the early days the Romans spoke a tongue which their descendants could not understand.—Youth's Companion.

## BRADFIELD'S FEMALE REGULATOR

gives nature the mild assistance needed for the regulation of the menses. It is of wonderful aid to the girl just entering womanhood, to the wife, and to the woman approaching or going through the turn of life. Women who suffer from any unnatural drain, any bearing-down pains in the lower abdomen, falling or displacement of the womb, can quickly cure their troubles at home, completely away from the eyes of a physician. A few doses taken each month will regulate the menses perfectly.
